

HSG Master in Banking and Finance ranked again among the ten best in the world by **Financial Times Master in Finance Ranking 2015.**

For the sixth time in a row the Master in Banking and Finance (MBF) has been ranked as one of the top ten Finance Masters worldwide by the FT Master in Finance Ranking. The detailed results of the ranking underline the international composition of the MBF students making the University of St.Gallen one of the most desirable places worldwide to study. The high placement success and the top placement within the category “value for money” further show that students are ideally prepared for leading positions within the industry and academia after their degree completion. Professor Manuel Ammann, academic director of the program, sees this consequent success of the MBF program as a “result of hard and dedicated work of the entire faculty to steadily improve and hold the highest possible quality in finance education within the German speaking area.” Further, Prof. Ammann underlines that the MBF offers a unique alumni network: “Meetings, such as the recent held alumni home-coming offer our students and alumni an extremely valuable opportunity to network and broaden their personal and professional environment.”
